PROJECT P²ECE: PREPARING PARAPROFESSIONALS FOR EARLY CHILDHOOD EDUCATION

ECE 102: Introduction to Early Childhood Education Lab Techniques

Bank of Resources
This Bank of Resources was developed under Project P2ECE (Award# H325N110018) funded by the U.S. Department of Education, Office of Special Education Programs. Project P2ECE is collaboration between the PAR2A Center of the University of Colorado Denver, the University of Northern Colorado and the Early Childhood Education programs at Colorado Community College System.

Acknowledgements

The Preparing Paraprofessionals for Early Childhood Education project (Project P² ECE) is funded by the Office of Special Education, Department of Education. Project P² ECE is a partnership between the Paraprofessional Resource and Research (PAR²A) Center at the University of Colorado Denver, University of Northern Colorado, and the ECE Statewide Community College Faculty Coalition. The project addresses the critical need for well-prepared professionals who are equipped with knowledge and skills to provide instructional support to children in a variety of preschool settings, including local school districts, Head Start, and community-based preschool programs for 3- to 5-year-olds.

An expert panel reviewed and adapted course competencies addressed in existing ECE-related certificate coursework and Associates of Arts programs in various community colleges in Colorado, by incorporating standard-based and evidence-based special education content and practices. After extensive review, the expert panel provided their recommendations for the ECE 102: Introduction to Early Childhood Education Lab Techniques course syllabus, course outline and resources, which were later collated as the ECE 102: Recommended Syllabus & Bank of Resources booklet. This booklet addresses all of the course competencies by providing relevant resources for ice breakers, readings, assignments/assessments, websites, and video clips.

We would like to acknowledge the ECE professionals who supported the development of this booklet through their input and guidance. We appreciate their invaluable assistance in reviewing the recommended syllabus for the ECE 102 course and ensuring its alignment to Division for Early Childhood’s Recommended Practices, and contributing invaluable resources to address each competency. We express our gratitude to the following members of the expert panel and community college faculty members:

- Richard Wagner, Front Range Community College
- Kim Sellers, Pikes Peak Community College

We also like to thank the following individuals for their efforts in bringing the ECE 102: Recommended Syllabus & Bank of Resources to its current form:

- Rashida Banerjee, University of Northern Colorado
- Ritu V. Chopra, University of Colorado Denver
- Namita Arora Mehta, University of Colorado Denver
- Geraldine I. DiPalma, University of Colorado Denver
- Cathy Smyth, University of Northern Colorado

We would also like to place on record our appreciation for the invaluable support rendered by the members of the ECE Statewide Community College Faculty Coalition, and for endorsing and helping the effort to make the recommendations a part of the statewide common core syllabus.

Note: This project was funded by Award# H325N110018 from the U.S. Department of Education, Office of Special Education Programs. The opinions expressed in this document do not necessarily reflect those of the U.S. Department of Education.
ECE 102: Introduction to Early Childhood Education Lab Techniques

Recommended Syllabus & Bank of Resources
Recommended Syllabus

Course Title (short): Intro to ECE Lab Techniques
Course Title (long): Introduction to Early Childhood Education Lab Techniques

Minimum Credit: 3
Maximum Credit: 
Status Notes: Prefix change
Course Notes: Previously entitled “Introduction to Child Education Lab Experience”
Origin Notes: ACC Notes: Visions entered 11/20/2010 LK

COURSE DESCRIPTION

Focuses on a classroom seminar and placement in a child care setting. The supervised placement provides the student with the opportunity to observe children, to practice appropriate interactions, and to develop effective guidance and management techniques. Addresses ages birth through age 8.

COURSE COMPETENCIES & OBJECTIVES

A. Apply knowledge of growth and development of young children birth through age 8.
B. Use methods for observing, documenting and assessing all children’s development and behavior.
C. Plan and use developmentally and culturally appropriate educational activities for all children.
D. Identify appropriate methods for interacting with and guiding all children.
E. Demonstrate knowledge of family systems and methods for establishing relationships with all families.
F. Demonstrate ability to work collaboratively with other early childhood professionals.
G. Apply ethical practices appropriate for early childhood professionals.
H. Compare and contrast early childhood education models in an educational setting.
I. Demonstrate compliance with Colorado Rules and Regulations in Early Care and Education.
J. Utilize technology for documentation and communication.

TOPICAL OUTLINE

1. Recognizing developmental progress:
   a. Physical
   b. Communication
   c. Cognitive
   d. Social/Emotional
   e. Adaptive
2. **Observing, documenting, and assessing**
   a. Children’s behavior and development
      i. Anecdotal records
      ii. Running records
      iii. Case studies
      iv. Checklists
         - Outcomes based individual assessments
         - Environmental assessments
      v. Time sampling
      vi. Event sampling
      vii. Charts
      viii. Children’s portfolios
   b. Early childhood teacher practices

3. **Reflective journaling**

4. **Self-evaluation**

5. **Planning developmentally appropriate activities for all children**
   a. Individual, large, and small group
   b. Routines and transitions

6. **Interacting and guiding**
   a. Positive adult to child interactions
   b. Direct guidance strategies

7. **Indirect guidance strategies**
   a. Positive child to child interactions

8. **Understanding family relationships**
   a. Strategies for communication with families

9. **Demonstrating positive working relationships**
   a. Teamwork
   b. Confidentiality

10. **Using National Association for the Education of Young Children (NAEYC) Code of Ethical Conduct to reflect on practices**

11. **Understanding educational models, birth to age 8**
    a. Variety of settings such as Head Start, public school, private setting, for-profit, non-profit, faith-based, Montessori, Waldorf, etc.
    b. Inclusive setting

12. **Knowledge**
    a. Compliance
13. **Using technology**
   a. Documentation
   b. Communication

---

### PARAPROFESSIONAL STANDARDS ADDRESSED

1. ECP1S2: Implement activities associated with family-centered, routines-based interventions within early childhood settings.
2. ECP3S1: Implement and document learning experiences and strategies that respect the diversity of young children and their families.
3. ECP4S1: Demonstrate proficiency in supporting skills in all domains.
4. ECP4S3: Adapt instructional strategies and materials.
5. ECP4S4: Use strategies to facilitate, maintain, and generalize skills across environments.
6. ECP4S5: Promote a young child’s positive sense of self and self-regulation.
7. ECP4S7: Implement and reinforce a wide variety of effective, developmentally appropriate, instructional and facilitation strategies that are responsive to the child and family’s learning style.
8. ECP4S9: Use social and emotional supports, determined by the early childhood team, to enhance young children meaningful, positive, and active engagement.
9. ECP4S10: Collect data under the guidance of the supervisor for the purposes of evaluating developmental growth and providing ongoing feedback under the guidance of the supervisor.
10. ECP4S11: Use a continuum of intervention strategies to support engagement in daily routines and activities.
11. ECP4S12: Implement appropriate strategies to address behavior concerns.
12. ECP5S5: Establish and maintain positive relationships with young children and their families.
13. ECP5S11: Structure social environments, using peer models and proximity, and responsive adults, to promote interactions among peers, parents, and caregivers.
15. ECP6S2: Support and reinforce the development of communication of young children.
16. ECP7S2: Prepare and organize activities to support learning of young children in the natural environment.
17. ECP7S5: Use developmentally and ability appropriate strategies, technology, activities and materials for young children.
18. ECP7S6: Make culturally responsive adaptations for the unique developmental and learning needs of all children.
21. EIP8S1: Record information in various formats.
22. EIP8S2: Assist in collecting and providing objective, accurate information.
23. ECP9K1: Principles that guide ethical practice.
24. ECP9S1: Conduct activities in compliance with applicable laws and policies.
25. ECP9S2: Maintain the dignity, privacy and confidentiality of all young children with exceptional needs, families, and agency employees.
26. ECP9S3: Protect the welfare and safety of young children at all times.
27. ECP9S12: Reflect on one’s performance for continuous improvement.
28. ECP9S13: Maintain relationships and communication with families within their professional scope of responsibility.
29. ECP10S1: Use federal, state and local policies for confidential communication about early childhood team practices.
30. ECP10S2: Forge respectful relationships with family members, service professionals and other early childhood team members.
31. ECP10S4: Participate as a team member to enhance early childhood team roles, communication and problem-solving.

ASSIGNMENTS & ASSESSMENT OF ASSIGNMENTS
Faculty will list the required assignments for this course and include rubrics, grading sheets, checklist, etc., that accompany each assignment. See Bank of Resources for suggestions.
1.
2.

GRADING
In order to receive a course grade as indicated relative to the point distribution, all required activities and projects must be completed.

94% to 100% – A
90% to 93% – A-
87% to 89% – B+
83% to 86% – B
80% to 82% – B-
75% to 79% – C
74% and below

Read Write Think materials may be reproduced for educational purposes.
Competency A: Knowledge of growth and development of young children.
Assignment A2: Lesson Plan

Plan a lesson about any topic you wish. In your lesson plan, state how you address the following areas of growth and development.

Language and Literacy

Fine Motor

Gross Motor

Social-Emotional

Math

Science
Competency B: Methods for observing, documenting, and assessing all children's development and behavior.

Assignment B2: Child Observation

Observe child and jot down notes of what you notice.

What environment are you observing the child in? Does the child look comfortable?

What activities is the child engaging in? Is there a part of the routine that is difficult for the child to follow?

Who is the child interacting with? Describe the interactions.
Competency C: Developmentally and culturally appropriate educational activities for all children.

Assignment C1: Designing Educational Activities

Design an activity to address each of the following areas. Try to integrate multiple learning domains into one activity. Make sure that the learning developmentally and culturally appropriate.

1. What activity would promote early literacy?

3. Design an activity to promote math skills.

4. Critique of quality picture book and design learning experience for it (with observable objectives)
   Add video on storybook journey

5. Evaluation of sensorial materials and manipulates-consider children with specific disabilities when giving this assignment. E.g. how would the play materials and space for play be designed differently for children who are deaf? Or blind? Or if they use a wheelchair?

6. Develop activities for the following learning centers.
   a. Art

   b. Dramatic play

   c. Outside areas

   d. Music
Competency D: Appropriate methods for interacting with and guiding all children.
Assignment D1: Learning Through Toys

Select three toys and define how these toys can be used to support learning in the classroom.

Toy:
Learning Outcomes:

Toy:
Learning Outcomes:

Toy:
Learning Outcomes:
Competency H: Early Childhood education models in an educational setting.
Assignment H2: Program Visit

Visit a Waldorf, Montessori, or Reggio-inspired program. During or after your visit, answer the following questions:

What did the curriculum entail? What are some strengths of the curriculum?

What materials are used in the classroom? How is the program/room set up?

Are all children able to participate in the learning experiences?

Does the learning environment and curriculum accommodate children with different abilities?
Activity Plan

You will be required to complete two activity plans during the semester in ECE 102. The first activity plan will be conducted by you. The second activity plan will be observed by your college instructor.

The activity plan is a two page format. The first page is your planning page and should be completed before you implement the activity plan.

The second page is a reflection of what happened during the activity plan. It should be written in well written paragraphs, demonstrating your observations and interpretation of what occurred during the activity plan.

The first activity plan is due on ________________________.

The second activity plan is due when I conduct my second observation. You will have a hard copy of the first page done for me as I observe you. At the next 102 class, you will have completed the second page of the activity plan.

The student intern is responsible for explaining the process and the due dates to the supervisor.
ECE 102 Activity Plan Form

Name __________________________________________
Date of Activity _____________________________________________________________
Name of Activity _____________________________________________________________
Age of Children: _______________ Group Size: Large or Small

Objective of Activity:
• Must be written with verbs that can be observable and measurable
• List in bullet form
• Focus should be on student learning
• Begin objective with “The student will be…………………..”
• Use verbs from Bloom’s Taxonomy that are observable and measurable

Curriculum/Standards Used:
• What was the basis for you choosing this activity to teach?

Materials and Equipment:
a) List the main items you will need for the activity

Activating Prior Knowledge:
• How will you activate prior knowledge?

Introduction:
• What you will say or do with the children to begin the activity?

Procedure:
• Clearly outline your step-by-step procedures

Summary/Closure:
• How will you end your activity?

How will you determine that the student accomplished the learning? How will you assess their learning?
• (This should be a well written statement, giving the reader additional information about what type of learning the students will accomplish. This information should relate to the objectives or curriculum stated at the beginning of the activity plan.)
ECE 102 Activity Plan Reflections

Complete the reflection form after the activity, including information about the following:

- How did the children respond to the activity? (one or two well written paragraphs)

- What went well? What did not go well? (one or two well written paragraphs)

- Were the learning objectives met? (one or two well written paragraphs)

- What changes would you make the next time? (one or two well written paragraphs)
The pages that follow are intended to be given to the Supervising/Mentor Teacher by the student intern in ECE 102.

Date
1. The mid-term conference is to be completed by both the student and the supervising teacher. The ECE 102 student should provide written comments about the observation and conference in the space provided.

2. This form will also be completed a second time by the supervising teacher at the end of the semester as a method for giving overall information about student performance to the college supervisor.
